About Me

Dedicated and detail-oriented full-stack developer proficient in HTML, CSS, JavaScript, and React. Skilled in creating user-friendly web applications with clean code. Strong collaboration and communication abilities. Eager to contribute to your organization's success.

Projects

 Overstock.com   (March 2023)

A leading online retailer offering a wide range of products, from furniture and home decor to electronics and fashion. Providing a seamless shopping experience with competitive prices and excellent customer service.

Key responsibilities:

- I was leading and responsible for my 5 members team and the whole project, which we completed within one week before the deadline.
- I created SignUp, SignIn, Payment, and OTP page

Tech Stack:   

 MELODIX   (June 2023)

Melodix is a simple music player web application that allows you to listen to your favorite songs. It provides a user-friendly interface where you can browse and play songs from a curated playlist. This project can be easily hosted on any web server and accessed through a web browser.

Features

- Play and pause songs
- Skip to the next or previous song
- Display the current song's name, duration, and album cover
- Progress bar to track the song's playback progress
- Interactive playlist with song names and album covers

Tech Stack:
